this project has not merely been
a dream,
it has become a reality!*

Let's keep the arts alive!

The Analy High School Theatre has been faithfully serving generations of students, organizations, and our entire community for over 80 years. In 1998 the building was beautifully remodeled, and now our

seats have been given a face lift. With the support of our community and grants, we have all 900 seats covered in a durable,

high quality cushioning that was added to the backs and seats of each chair, aiding our performers in much-needed acoustic improvement. The beautiful sea of blue is not only aesthetically pleasing but our audience has seen a dramatic improvement in their comfort. The Renovation Project has included many improvements to the sound system, a lighting board, and a new curtain. To visibly display our appreciation

of your generous support, donors' custom messages are carefully engraved in one arm of a chair and randomly placed throughout the theatre.

Frequently Asked Questions

Other than aesthetics and comfort, what were the other benefits of restoring the seats?

Our performers now hear and feel a major difference in sound. The fabric and cushioning aid tremendously in both sound absorption and reverberations back to the stage.

Can I choose where "my" seat will be placed?

Unfortunately, we must say no. It would not be logistically feasible to allow seating designations, plus we could possibly find ourselves unable to meet all requests.

Will I be able to sit in "my" seat for performances?

Again, we would like everyone to be able to sit in "their" seat, when they visit the theatre, but this would be very difficult ... but once you have found "your" seat, come early and be our guest to enjoy its comfort!

How long will the seats last?

If we can work together to avoid feet on the seats, avoid eating or drinking in the theatre, and avoid snags or tears, our beautiful new seats should provide us with another comfortable 80 to 100 years of service.

Other than fixing the seats, what else does my \$130 do?

Your kind donation will also help us buy new lighting instruments, sound board, cyclorama, and amplifiers.
